

CCMP Background Analysis

Initial Presentation to the Management Conference

María Gabriela Huertas Díaz

May 26, 2021

We are here

Overall

Water and Sediment Quality

Habitat, Fish and Wildlife

We are here

Aquatic Debris

Green Infrastructure

Public Education and Involvement

Pending Questions

- What did we set out to do?
- What did we actually do?
- How do the two compare?
- Have we been effective?
- Why or why not have we been effective?
- What must we continue to do in our next CCMP to continue being effective?
- What must we do differently in our next CCMP to continue being effective?

Activities

1

Reconnaissance

Identify data sources and gather all necessary information.

2

Build Database

Create a database that compiles all the data necessary for analysis.

3

Analysis

First, establish what we said we would do.
Second, document what we actually did.
Finally, compare the two.

4

Recommendations

Draft recommended next steps based on the analysis.

5

Final Report

Draft a final report that clearly and concisely documents what Estuario has accomplished to date.

Timeline

Thank you.
